About the Workshop

The Workshop focused on various data mining tools, which supports the discovering patterns/ trends / groupings among large sets of data and transforming data into more refined

information. We can perform various algorithms such as clustering or classification on your data set visualize the results itself. It is a framework that provides us better insights for our data and the phenomenon that data represent. Such a framework is called a data mining tools and also introduces basic principles of data mining, analysis of unstructured data using different tools.
